A CSE Sophomore at Chitkara Institute of Engineering and Technology, Rajpura

TECHNICAL SKILLS

PROGRAMMING LANGUAGES: C/C++, Python,Swift

EDUCATION

B.Tech. in Computer Science and Engineering *(8.35 CGPA)*

Chitkara Institute of Engineering and Technology, Rajpura

PROJECT

1.E-Commerce Shopping Website

Tech Stack: HTML, CSS, JavaScript

- Built a responsive shopping website to browse and order products like books, toys, and electronics.
- Implemented Add to Cart and Remove from Cart features with real-time total price updates.
- Designed a clean and modern user interface using HTML and CSS for cross-browser support.
- Created dynamic product listings with category-wise filtering for easy navigation.
- Ensured smooth and responsive performance across mobile and desktop devices.

2.Smart Hospital Appointment & Availability Website

Tech Stack: HTML, CSS, JavaScript, Node.js, Express.js, MySQL

- Built a responsive smart hospital website to manage appointments, doctor availability, and hospital resources efficiently.
- Implemented online appointment booking with real-time doctor schedule and live queue/token tracking.
- Developed dynamic features to check bed availability and hospital pharmacy medicine availability.
- Integrated symptom-based basic medicine suggestions verified by doctors for common health issues.
- Added emergency ambulance booking with priority handling and live location tracking.

COURSES

•C / C++, Python, HTM, CSS, JavaScript,Swift.
